

DNA Sequencing Service

Price per Sample (EUR)

Executing your order and unique project reliably is our pleasure.

DNA Isolation*	10,00 €					
Bisulfite Conversion*	→	16,00 €				
PCR** & Purifying	→		14,80 €			
Cycle Sequencing & Purifying* & Capillary Sequencing	→			up to 350bp: 12,80 € 350+bp: 15,80 €		
Editing	→				up to 350bp: 5,00 € 350+bp: 10,00 €	
Alignment	→				on request	
Specials	96well Plates: 10% Discount on all Services		OD Measurement: 4,00 €	Primer Synthesis: 1,10 €/base	Primer Design: 1,50 €/base	More Add-ons: on request

- *: done by commercial kits or optimized protocols, bisulfite conversion in case of bisulfite sequencing (methylation analysis)
- **: standard primer available (e.g. M13,T7)
- data support by email (normally within 2 to 3 business days after sample receipt)
- important sample details to bear in mind: shipping, amounts of DNA, etc. ... please discuss with us!
- interest on customized services, e.g. microsatellite/STR, fingerprinting, LOH and many more ... please discuss with us!
- all prices plus VAT
- prepaid packages: please send request to sequencing@varionostic.de
